Jack Mathieson Journal Week 12

jack.mathieson

October 2019

-25/Oct/19
-downloading a thing called "duplicati" apparently it helps with backing up stuff... software...?

-...ah, the joys of downloading

-actually in fairness this got up and running very quickly. Yay!

-huh, ok, so this system seems a bit more sophisticated than the Acronis

-All done! That was easy.

0.1 Working with R

-going over something called a for-loop, which I think is about running the same set of commands over and over...

-...and I cannot technology... I'll try to figure out this coding stuff later.
